Dear Sir:

Answering your note of the 14th, I am enclosing an application for membership in this Society. The dues are five dollars annually and as a member you would be entitled to the publications of the year; these come in the form of a series known as "Numismatic Notes & Monographs". I am enclosing a list of those issued to-date. The requirement for membership is an interest in numismatics.

"The Numismatist", a monthly publication, is issued by the American Numismatic Association; the enclosed circular gives details. As for books on numismatics, there are so many and such a variety, that one would have to know more about your interests and needs before giving advice. We should be glad to be of assistance if you care to call upon us.

Very truly yours,

Curator.
